

# CUSTOMER CASE STUDY

Mount Alvernia College, Queensland

Helen Stower, Program Leader - iCentre

**Mount Alvernia College is a warm engaging community where students are encouraged to follow their pursuits in academic, sporting, outreach, and cultural activities, all whilst fostering their spiritual faith.**

Mount Alvernia College exists to educate the minds and hearts of students in a community of challenge and support and nurture a culture of learning. Offering a best-practice learning environment, every effort is made at Mount Alvernia to give our students the resources and support they need to pursue their goals according to their individual gifts. In terms of college resources, this means we are a blended learning environment, where students bring their own device and we use a mix of digital textbooks, digital technologies and print resources to achieve effective learning for every student.

Mount Alvernia College has been with Campion since 2019. We are heavily invested in the MyConnect2 learning platform and have nothing but positive reviews from students and staff. Campion look after us – if we didn't have the Campion service, we would be immersed in creating accounts and setting things up for every student, every teacher, every publisher. Instead, Campion takes care of this for us.

As well as MyConnect2, the Secure Connect service is excellent. Our staff and student lists are automatically managed and the resources they need are provisioned for them without any need for intervention. As well as being completely secure we have trust in the systems Campion has developed to deliver what we need here at the school.

There were some teething issues at the start with getting everything set up on the original MyConnect platform, and I can't speak highly enough of how Campion have untangled things for us. MyConnect2 is a purpose built, world class platform – with no platform fees – and it works perfectly for us, but actually the number one benefit of working with Campion is the people - Brett, Joe, Carlo. There's in-app support, email support, phone support – when we need help with something, they are right there.

**"...the Secure Connect service is excellent. Our staff and student lists are automatically managed and the resources they need are provisioned for them without any need for intervention.."**
